

# A SUCCESSFUL PARTNERSHIP

## Paul Stubbs

A very successful partnership exists between Bunning's "Tower Junction" branch and Vision Employment to the benefit of our clients.

The rapport with Bunning's seen them turn to us when they needed 30 temporary positions filled for four weeks. Victoria worked in with

Workbridge and one of the CV's forwarded was for Paul.

Paul's stated "Dream Job" was to work at Bunning's. Workbridge had tried previously to introduce Paul to Bunning's without success.

Paul was taken on for the four week period and impressed Bunning's enough to offer him part time permanent employment after the completion of the temporary contract. Initially wage subsidies were paid by Work and Income.

Paul has proven himself to Bunning's and in turn, his hours have steadily increased to now be working full time.

With the help of Paul Isherwood at Workbridge, an Occupational Therapist assessment was conducted and as a result of this, funding was approved to purchase specialised equipment for Paul in the workplace to help overcome his vision impairment.

Paul loves working for Bunning's and appreciates the independence his job brings him. Recently Paul went on a sea cruise holiday, something that he has achieved by working hard and enjoying the income he earns as a valuable team member at Bunnings.

Well done Paul
